Claim Objections

Claims 14, 16-19 and 21-25 are objected to because of the following informalities: Regarding claims 14 and 19, in line 8 of claim 14, in line 7 of claim 19, Applicant is claiming "capable," which makes the limitations following it to be optional, which renders the means and bounds of the claim to be vague and indefinite.

Appropriate correction is required

Allowable Subject Matter

1. Claims 9-13 are allowed over prior art.
1. The following is an examiner's statement of reasons for allowance:
2. Applicant has amended claims 14 and 19 to include previously indicated allowable subject matter, and Applicant has further canceled claims 15 and 20.
2. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to teach or fairly suggest with respect to claim 9 and 13, determining to which group each of plurality of control data belongs, and a multiplexer that multiplexes control data determined to belong to a same group, so as to generate multiplexed control data, with respect to claims 14 and 19, second control data is a message capable of being transmitted without waiting for response data from a communicating partner to the first control data.

Conclusion

3. This application is in condition for allowance except for the following formal matters:
